## **IMSA COMPETITION BULLETIN #09-22**

To: All American Le Mans Series Entrants

From: Beaux Barfield, ALMS Race Director  
Scot E Elkins, Vice-President, Operations

Date: 28 August 2009

Re: Full Course Yellow and Wave by Procedures

---

The following changes are made to the American Le Mans Series SSR:

23.5.1 When the Race Director deems appropriate, he will instruct the wave-by of any cars which are between the Safety Car and the first class leader.

23.5.3 When the Race Director has determined that the course is clear and acceptable for the continuation of competition, he will instruct the Safety Car to extinguish its flashing yellow lights the next time it passes Start/Finish, signifying that this will start the final lap of this Safety Car intervention. The Safety Car will exit the course at the entrance to the pit lane.
