

Chris Cumming Podiums in Both Miller Motorsports Park GT3 Races

World Speed Motorsports is currently 5th in Platinum Class Points

July 14th, 2010
Tooele, Utah

Chris Cumming and World Speed Motorsports headed to Miller Motorsports Park in Utah this past weekend, and came home with some hard earned trophies. The field was close as usual, and the pressure was high. "Chris was battling hard in both races which was an extreme mental and physical workout. We were very proud of his on-track performance at MMP and we're looking forward to getting him onto the top step before the end of this season," stated Team Manager John Olsen.

Chris Cumming had this to add, "The team at World Speed has been working so hard and I feel that we were finally able to show our form this weekend. We're getting better every race and looking forward to the next round at Mid-Ohio. A big thanks to John, Virgil, Kevin, Bob, and Mikel." Mikel Miller from [Standing Start](#) has been Chris' driver coach for the past few seasons, and has helped Chris win races, and secure championships in open wheel competition.

The team is now back home at Infineon Raceway getting the #16 freshened up for the Mid-Ohio Sports Car Course double header on August 6th and 7th.

World Speed Motorsports will be competing in these series in 2010

About the Series:

The Patron GT3 Challenge series is broken into two classes; the Platinum Cup and the Gold Cup. The Platinum Cup is for the most current GT3 Porsche Cup car, and the Gold Cup is for earlier versions. Prize money is available to both classes, and races are televised on SpeedTV.

In 2010 the series is entering its sixth season of competition. Sanctioned by the International Motor Sports Association in conjunction with Porsche Motorsport North America, the series gives top semi-professional drivers from the United States and North America the opportunity to compete with such prestigious organizations as the American Le Mans Series in the world's most successful GT3 car - the Porsche 911.

About World Speed Motorsports:

As one of America's most dynamic racing ventures, World Speed Motorsports has operated multi-car race programs in the Champ Car Atlantic Championship, Star Mazda Series and Formula Renault. World Speed has won major races in every series they have competed in, and has won a plethora of championships. World Speed alumni have raced in IndyCar, Sprint Cup, Formula One, and many other major racing series across the world. The team's headquarters is located at Infineon Raceway in Sonoma California. <http://www.WorldSpeed.com>
