

L-2 Homologation Form Addendum
June 7, 2010

WX10
WR1000

Optional -

West Part Description: External Fuel Fill Kit

West Part Number: 630-145 (WR1000)
630-147 (WX10)

NOTES: Requires customer mails their fuel cell neck to West for welding mods
For WR1000 - requires updated ram air ducts (west part# 400-140) or modifying existing
ram air ducts slightly to accommodate the fuel pipe coming through the center.

Overhead view with tail off – WR1000

Side View with ram air ducts installed – WR1000

Rear view with ram air ducts installed – WR1000

Side view without ram air ducts – WR1000

External view with tail on

NOTE: External fuel fill for WX10 is similar to WR1000, but filler cap is mounted on the right upper side of the tail
